

PARTNER WITH SHERWIN-WILLIAMS CERTIFIED APPLICATORS FOR YOUR SEWER INFRASTRUCTURE COATING PROJECTS

The Sherwin-Williams Certified Applicator Program leverages a national network of vetted installation applicators, creating a more competitive bidding process and ensuring that only certified applicators bid on warranted projects.

Our Sherwin-Williams contractors are required to renew their status with the program annually to ensure they remain current on technologies, and every project is subject to a quality audit conducted by Sherwin-Williams. Additionally, the program offers on-site technical service for the duration of the job.

PROGRAM BENEFITS FOR MUNICIPAL OWNERS AND SPECIFIERS

Proven quality system design and specification support for infrastructure coating projects.

Vetted and qualified applicator network. National online applicator directory.

One Sherwin-Williams sewer infrastructure lining and rehabilitation supported warranty.

Unparalleled technical support ensures efficient, excellent application.

High-quality trusted products at competitive prices with national distribution.

TRUSTED PRODUCTS WITH PROVEN PERFORMANCE

The products used by our certified applicators are all tested and approved by Sherwin-Williams. You can trust that they are industry proven. All components of our systems are warranty backed and have been tried, tested and used by many municipalities across the country. Some of these solutions include:

- Cementitious repair mortars and linings from A.W. Cook Cement
- Inflow and infiltration remediation from Avanti Grouts
- Epoxy and elastomeric, polyurethane, chemical-resistant linings from Sherwin-Williams
